

ACADIA

A stylized, low-poly illustration of Acadia National Park. The scene depicts a lighthouse perched on a rugged, grey and yellow rocky cliff. The lighthouse is white with a dark roof and a glowing yellow light. To the left of the lighthouse, a dense cluster of dark green evergreen trees grows on the cliff. The background features a large, bright yellow sun setting over a dark blue ocean. The sky is a mix of warm orange and yellow tones, with soft, white clouds. The overall style is modern and graphic, using a limited color palette of blues, yellows, oranges, and greys.

NATURE'S REST

Nature at its Best

Sleep Well. Rise Restored.

Nature & Comfort in Harmony

We believe in the restorative power of nature and that harmonizing health, comfort, and sleep makes our lives better. So we developed an environmentally conscious mattress that doesn't compromise on comfort.

We're for those who believe natural is better. They believe a more natural life leads to a happier, healthier and better quality of life. They are a conscious consumer who considers the social, environmental, ecological and political impact of their actions.

Acadia National Park

Acadia is a National Park in the rocky headlands along the Atlantic coast of the United States known for its abundance of habitats with high biodiversity, clean air and water, and rich cultural heritage. It receives more than 3.5 million visitors a year.

How was Acadia National Park Created

Acadia was officially made into a National Park on July 8th, 1916 - the first national park in the United States east of the Mississippi River.

1613

The first French missionary colony in America was established on Mount Desert Island.

1868

The first steamboat service from Boston was inaugurated.

1929

Lafayette National Park was renamed Acadia National Park.

1901

The Maine Legislature granted Hancock County a charter to acquire and hold the land in public interest.

1916

President Woodrow Wilson first established federal status as Sieur de Monts National Monument, later renamed Lafayette National Park in 1919.

1947

More than 10,000 sq acres burned in a forest fire, one of a series of fires that consumed much of Maine's forest that year.

National Parks are chosen for their natural beauty, unique geological features, and unusual ecosystems. Acadia is 76 square miles of mountains, an ocean coastline, woodlands, lakes, ponds, and wetlands.

Things to do

Hiking, Photography, Biking, Camping, Swimming, Rock Climbing, Kayaking, Horseback Riding, Snowshoeing, and Ice fishing.

Location:

Maine Central Coast

Bass Harbor Light House

Cadillac Mountain

Somes Sound

Otter Cliff

Jordan Pond

Shoodic Point

Climate:

Hot and Humid Summers
57 - 97 °F
Cold and Snowy Winters
17 - 34 °F

By the Numbers:

3,400,000 people per year visit Acadia
158 miles of trails in Acadia
12 Lighthouses in Acadia

The annual Acadia Night Sky Festival is one of the premier night sky events on the eastern seaboard. Here, the Milky Way shines bright in the largest expanse of naturally dark sky east of the Mississippi River.

John D. Rockefeller, Jr. after buying a summer home in Acadia, created the Carriage Roads - 57 miles of road, including 17 stone bridges, where still today no cars are allowed.

A photograph of a forest floor covered in vibrant green moss. Several tall, slender tree trunks stand in the background, and a large, textured tree trunk is on the right. A bright light source in the upper right corner creates a warm, golden glow and lens flare effects across the scene.

Sleep Well. Rise Restored.

We build an environmentally conscious mattress without compromising on comfort.

Refined

Designed to be natural in all the right ways. We are devoted to the details, making sure our product is the best for your body, your home, and our natural environment.

-  **Linen and Talalay Latex** are hypoallergenic, resistant to insects, and microbial growth.

Restorative

Wake up renewed within the comfort of nature. We create buoyant, body conforming support in a variety of options designed to be responsive to you.

-  **Talalay Latex and Linen** are breathable.
- **Talalay Latex** is up to 7 times more breathable than other foams.
-  **Talalay Latex** delivers a unique buoyant quality which relaxes muscles and relieves tension, lifting away the pressures of the day while you sleep.

Responsible

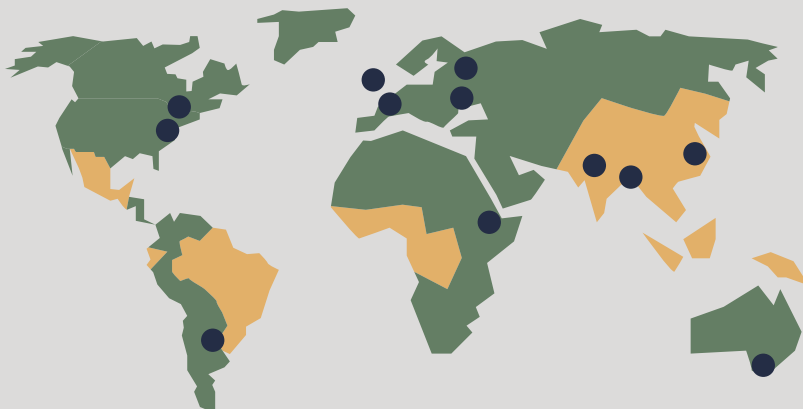

Sustainable for our planet and your bedroom. Our proven, natural construction delivers consistently conforming comfort over time.

Your Bedroom

-  **Linen fabric** is durable and lightweight.
- **Talalay Latex** is the most resilient material available in a mattress.

Our Planet

-  **Linen and Talalay Latex** are Biodegradable.
-  **Cultivation of Linen** uses up to 20% less energy and water than other comparable fabrics.
-  **Rubber Trees** absorb carbon dioxide from the atmosphere, helping reduce greenhouse gases.

 Linen, which is made from the Flax plant, is technically a vegetable and the oldest cultivated plant in human history.

 Talalay Latex, which is made from the sap of the rubber tree and is used in Airplane tires.
